

HUMOR

WISDOM FROM TRAINING MANUALS; What is the similarity between air traffic controllers and pilots? If a pilot screws up, the pilot dies; but if ATC screws up,...the pilot dies. Never trade luck for skill. The three most common expressions in military aviation are: Did you feel that? What's that noise? and OH S...! Airspeed, altitude and brains. Two are always needed to successfully complete the flight. Flying the airplane is more important than radioing your plight to a person on the ground who is incapable of understanding or doing anything about it. The Piper Cub is the safest airplane in the world: it can barely kill you. There is no reason to fly through a thunderstorm in peacetime. You know that your landing gear is up and locked when it takes full power to taxi to the terminal. The test pilot climbs out of the experimental aircraft wings and tail torn off; the crash truck arrives. The driver notes the bloodied pilot and asks, What happened? The pilot replies: I don't know, I just got here!
