## HUMOR

**WISDOM FROM TRAINING MANUALS;** If the enemy is in range, so are you. Don't eject directly over the area you just bombed. Whoever said the pen is mightier than the sword, obviously never encountered automatic weapons. You, you and you...panic. The rest of you, come with me. Tracers work both ways. Five second fuses last about three seconds. The three most useless things in aviation are; Fuel in the bowser; Runway behind you; and Air above you.
